

COX SCHEDULED FOR 16 SPEECHES ON TO-DAY'S TOUR

Governor Travels Over Large Section of South Dakota—Pleased at Outlook.

SIoux CITY, Ia., Sept. 28.—A day's campaigning calling for sixteen speeches, equalling his record mark, was begun here by Gov. Cox of Ohio. A brief before-breakfast talk here at the station headed one of the hardest programmes of the Democratic Presidential candidate's trip.

From here a special train provided by the South Dakota committee was enroute to take him on a tour of fourteen cities in the southern and eastern parts of South Dakota. His address here was the only Iowa engagement on the Governor's itinerary.

The League of Nations and agricultural questions were the major topics of Gov. Cox for his South Dakota tour, which followed hard on the heels of the dozen speeches he made yesterday throughout Nebraska, ending at Omaha last night. Among the South Dakota cities on to-day's itinerary were Elk Point, Vermillion, Yankton, Brookland, Tripp, Parkston, Mitchell, Alexandria, Emery, Bridgewater, Parker, Lemmon, Canton and Sioux Falls. He was billed for two addresses at Mitchell and a finale to-night at Sioux Falls, prior to departure for engagements to-morrow at St. Joseph, Mo., Topeka, Wichita and other Kansas points.

Gov. Cox expressed himself as highly pleased with his Nebraska tour, despite reports to Democratic headquarters that the so-called German vote will be virtually a unit for Harding. The Governor considered his reception at Omaha as one of the most enthusiastic of the tour.

Gov. Cox is definitely on record as being opposed to striking Article X from the treaty. He says it is simply an application of the Monroe Doctrine to world affairs, and that it could not be eliminated without injuring the covenant.

49-INCH WAIST IN LEAD.

Democratic Women Vie in Novel Contest to Split Campaign Fund.

New York women voters are interested in the waist measure contests being held throughout the State to raise funds for the Democratic campaign. Miss Elizabeth Marbury, National Committee woman, inaugurated the idea of measuring the waists of the new electorate at five cents an inch and, being a good sport, she defies any woman to contribute more to the fund than herself. Prizes will be awarded to the women having the largest and smallest waists. Thus far Miss Marbury and Miss Adelaide Bayless of Red Cross Motor Corps fame are in the lead, the former measuring forty-nine inches and the latter eighteen inches.

ONE of the reasons why Ovington gifts are persona grata at any wedding in the land, is that great care is observed in the manner of their sending.

The conventions are rigidly observed. Ovington's originality applies only to the gifts themselves.

HARDING RESUMES CAMPAIGN SWING; FINDS HEAT TRYING

Special Train Makes Numerous Stops on Its Way to Wheeling.

ON BOARD SENATOR HARDING'S SPECIAL TRAIN, Sept. 28.—Carrying his campaign into another of the political border States, Senator Harding began to-day a strenuous schedule of addresses which will take him to most of the larger cities of West Virginia before he returns to Marion to-morrow night.

The only set speech on to-day's schedule was to be at an evening meeting at Wheeling, but the special train made numerous short stops at other points, where crowds greeted the Republican nominee and asked him to address them. To-morrow he will stop at Parkersburg, Huntington and Keokov, besides making a swing into Kentucky for an afternoon speech at Ashland.

The exceptional heat has made his trip unusually trying, and his voice showed the strain of last night's speech to the tumultuous gathering in the Baltimore auditorium.

As he travelled westward to-day Senator Harding took up various important features of his campaign in conferences with several of his closest advisers. On his train were Harry M. Daugherty, the nominee's pre-convention manager, Charles D. Hiles, former Republican National Chairman and former Senator George Sutherland of Utah, who is on the

NEW INQUIRY BEGUN INTO GIRL'S DEATH

Coroner's Record Shows Kuller Removed Auto License Plate and Gave False Name.

CATSKILL, N. Y., Sept. 28.—District Attorney Curtis has obtained a transcript of the testimony at the Coroner's inquest into the death of Miss May Costello of Brooklyn, who was killed in an automobile accident a week ago while riding with Moses Kuller, a New York clothing manufacturer. It was said the District Attorney's action was taken with a view to possible Grand Jury action.

The testimony indicates that Kuller gave the name of Davis after the accident, that he removed the license plate from his wrecked car and that he had been speeding—although he denies this. Kuller testified that because of unpleasant circumstances at home he had come to Catskill for an outing.

GROGAN GETS 15 MONTHS.

Former State Motor Inspector Sentenced for Share in Conspiracy.

Robert E. Grogan, former inspector of the State Motor License Bureau, convicted last week of conspiracy to violate the Federal Motor Vehicle Law by assisting in the sale of several stolen automobiles which were brought to this city from New Jersey, was sentenced yesterday by Federal Judge William H. Sheppards to serve fifteen months in the United States Penitentiary at Atlanta, Ga. John E. Tench, proprietor of a road house at Hollis, L. I., who pleaded guilty on an indictment charging the same offense, but who served as a witness against Grogan, was sentenced to three months in the Essex County, N. Y., Jail.

NO RAISE IN COST OF OCTOBER MILK

But Dairymen Insist That Distributors Buy All They Produce.

The Dairymen's League announced to-day that it had decided to demand the same price for October milk as the distributors paid in September, namely, \$1.60 per hundred pounds, but that this price must apply to all the milk produced and offered for sale by all of the 5,000 farmer members of the league.

This means that the league is ready to oppose the distributors on the refusal of the latter to buy any more milk for their condenseries and evaporated milk factories. The condenseries are filled with condensed milk when sugar was high and milk was cheap. They will not buy any more milk of the farmers until their present huge stocks are depleted. The farmers, through the league, will insist that the distributors, who really own the condenseries, buy all of the milk produced, as otherwise they say they will be forced to fill off their cows.

"DANDERINE"

Stops Hair Coming Out; Doubles Its Beauty.

A few cents buys "Danderine." After an application of "Danderine" you cannot find a fallen hair or any dandruff, besides every hair shows new life, vigor, brightness, more color and thickness.—Advt.

Jew and Gentile in London Regret Swift Death.

LONDON, Sept. 28.—The news of the death of Jacob H. Schiff, emigrant from New York, has created a deep impression upon the community, and profound regret is expressed alike by prominent Jews and Gentiles.

Jewish organizations have issued messages of condolence, and the press also comments regretfully upon the passing of the international financier and philanthropist.

They can start in bathrooms apparently spotless

The "filth" diseases that kill 175,000 people each year

THE bathroom—your own shining white bathroom—is the most dangerous place in the house. Down the bathroom drain pipes goes all the waste matter from the whole body.

Unless these pipes are kept as exquisitely clean as the tiles and porcelain they may make your whole family ill. You cannot rely on the most vigorous scrubbing to keep your bathroom absolutely, antiseptically clean. Scrubbing gives a surface cleanliness but it is powerless to destroy the germs which inevitably collect in the drains.

Though more disease is contracted from persons than places, much of the typhoid and dysentery that ravage the country each year starts in the immaculate bathrooms of immaculate homes. Yet doctors call them "filth" diseases.

The way to keep your bathroom disease proof

Modern science, which discovered that germs are responsible for disease, discovered, too, the way to render them harmless.

It has given us Sylpho-Nathol—and Sylpho-Nathol makes it easy and practical to keep your bathroom disease proof.

Particular housekeepers everywhere are using Sylpho-Nathol. They are putting it into the hot sudsy water when they scrub the bathroom—and the rest of the house. The last thing each night they are rinsing out the basin and tub with water and a little Sylpho-Nathol.

They are pouring a solution down the drains. It remains in the traps all night, purifying them, disinfecting them. A teaspoonful of Sylpho-Nathol goes into the clear water of the toilet, too. There it stays until morning and the toilet pipes are made—and kept—antiseptically clean.

Start today to give your family this greater protection. Keep a bottle of Sylpho-Nathol on the bathroom shelf, and make the daily use of it as regular a habit as washing your dishes and brushing your teeth.

Leading hospitals use Sylpho-Nathol. It comes in four convenient sizes, 15c, 35c, 65c and \$1.25. Get it at drug and department stores. The Sylpho-Nathol Company, Boston, Bel & Co., N. Y. and Phila., Agents.

The six danger spots in your home:
1—Bathroom pipes
2—Toilet
3—Garbage can
4—Sink
5—Refrigerator
6—Dark corners
